Citizens can pay taxes, sending the complaint with multimedia options (photos, videos, GPS location), finding nearest municipal facilities and emergency pharmacies with map directions. The application is running with e-municipal system simultaneous. It can be managed by asp.net web-based panel. Karşıyaka Belediyesi, Konak Belediyesi, Balçova Belediyesi, Seferihisar Belediyesi, Manavgat Belediyesi.

6Q Games

Web Developer

August 2010 - December 2011 (1 year 5 months)

Izmir, Turkey

- Multiplayer Facebook Applications (6Q Games, 08/2010- 12/2011)

Some improvements were made for multiplayer facebook games. These are board games like Okey, Tavla, Batak etc... and have 5 million monthly active users. Games have many simultaneously SQL queries and that was caused a lack of performance. I designed a new database and new game algorithms to maximize performance client-server communications. Also, I developed some HTML codes on the frontend to reduce overcrowding on Adobe Flash.

Bilisimtrk

Web Developer & C# Mobile (Part-Time)

January 2009 - July 2010 (1 year 7 months)

Izmir, Turkey
